

WAVERLEY

THE WORLD'S LAST SEAGOING PADDLE STEAMER

BRISTOL CHANNEL & SOUTH WALES ACCESSIBILITY GUIDE

PADDLE STEAMER WAVERLEY

THE WORLD'S LAST SEAGOING PADDLE STEAMER

Introduction

Paddle Steamer Waverley is a heritage vessel from the 1940s which operates from over 60 ports and piers around the UK. In operating Waverley for public benefit we work to provide a safe and enjoyable experience for all passengers, including those with accessibility needs. This guide is provided to aid passengers in planning their trip aboard Waverley.

If you have any specific requirements or further questions regarding accessibility, please contact our Booking Office by emailing info@waverleyexcursions.co.uk prior to your cruise.

Gangways and Wheelchair Access

The gangways leading to Waverley have foot ridges for safety purposes therefore wheelchairs can't be pushed across gangways. Wheelchair passengers who are unable to walk across the gangway will need to be carried across whilst seated in the wheelchair.

For safety reasons, there is a maximum weight limit of 14 stone (90kg) for passengers which can be carried in wheelchairs. Please keep this in mind when planning your cruise.

Please be aware that there may be stairs on one or both ends of the gangway when embarking or disembarking Waverley. Our crew members are able to assist passengers who require additional support or have limited mobility.

Electric Wheelchairs and Motor Scooters

Due to safe manual handling regulations and the nature of Waverley's gangways, we are unable to carry electric wheelchairs or motor scooters on board Waverley. We apologise for any inconvenience this may cause.

Moving Around Waverley

As Waverley is a historic passenger ship, the stairs between the decks are relatively steep. If you have any concerns or require assistance navigating the stairs, please ask our crew members for help.

Accessible Toilet

Waverley has an accessible toilet facility on the promenade deck, which can be accessed using a Radar Key or by collecting a key from the Purser's Office or the Caledonia Tea Bar.

Coach Connections

Some of Waverley's trips include a coach connection. Please contact us to confirm if there are accessible coaches operating where a section of the trip is undertaken by coach connection or a coach return.

Ports and Piers Information

Many of the piers Waverley uses were built in the days before easy accessibility and step-free access were considered necessary. Embarking and disembarking the ship can also be made difficult by natural forces such as tidal ranges in certain locations.

We use three categories for classifying the accessibility of each port / pier as shown in the table below.

Category	Description
A	Category A ports / piers have no restrictions to accessing Waverley for disabled passengers or those with restricted mobility.
B	These ports / piers may have access restrictions depending on local tidal conditions.
C	These ports / piers have access restrictions with no step-free access.

Please note that at any port / pier there may be steps at the gangway or once aboard Waverley.

Bideford Quay

The Quay, Bideford, EX39 2EY

Car Parking

Pay and display parking available at The Quay, EX39 2HL (maximum stay 10 hours)

Step-free up to gangway
